

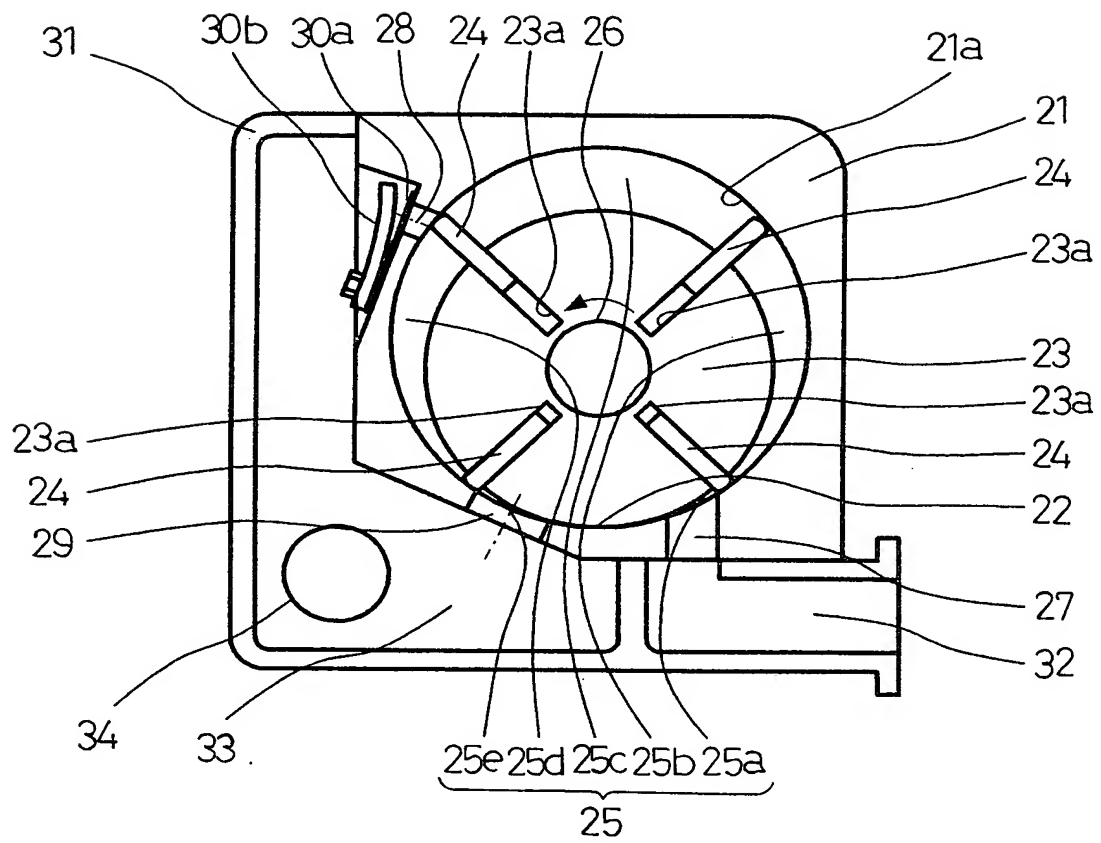

*Fig. 1*

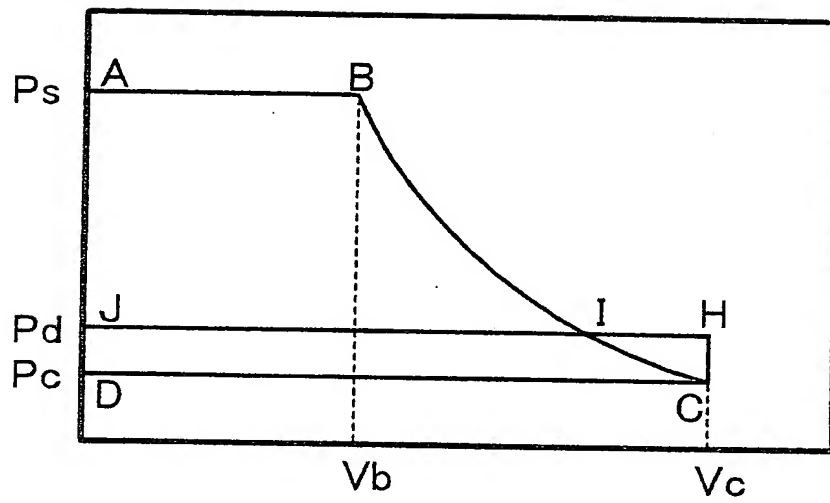

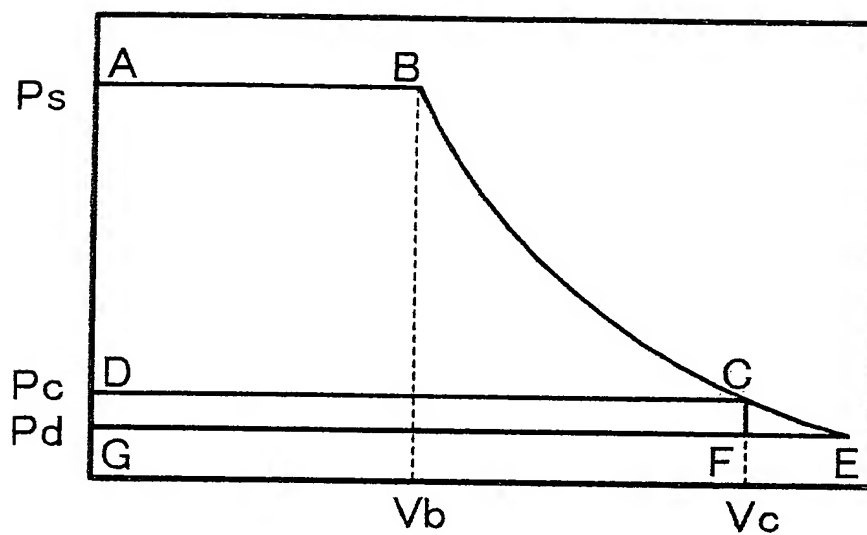

*Fig. 2*

Figure 1 is a schematic cross-sectional view of a pump assembly. The assembly includes a housing (1) with a central impeller (3) mounted on a shaft (2). The impeller has four blades (3a) and a central hub (3b). The shaft is supported by bearings (4) and a seal (5) at the bottom. The seal is composed of a seal ring (5a) and a seal lip (5b). The housing has a flange (6) and a mounting bracket (7). The entire assembly is mounted on a base (10).
